This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE TO VOLUMES XXXI-XXXII

In the preparation of this Index, the Editor has had the active co-operation of Annie Amelia Nunns, A. B., Louise Phelps Kellogg, Ph. D., and Lillian Jane Beecroft, B. L. — Miss Beecroft, in the preparation of the preliminary reference slips; both Miss Nunns and Miss Kellogg in the assembling of the large captions; while Miss Nunns has assisted throughout in all matters of editorial supervision and correlation.

Captions concerned with the following subjects have for convenience been alphabetically grouped thereunder, in preference to distributing them through the Index according to their respective alphabetical positions: Bayous, Bays, Bottoms, Bluffs, Cañons, Capes, Caves, Creeks, Falls, Forts, Gaps, Gulfs, Harbors, Inlets, Islands, Isthmuses, Lakes, Mountains (including Hills and Mounts), Narrows, Oceans, Passes, Points, Portages, Ports, Prairies, Rapids, Rivers, Roads, Rocks, Seas, Sounds, Springs, Straits, and Valleys.

Of similar character, but under a more or less analytical arrangement rather than an alphabetical group of captions, are the following: Amusements, Architecture, Cloth, Clothing, Diseases and Remedies, Ferries, Manufactures, Maps, Monuments, Prices, Settlements, Soils, Stone (rocks), Taverns, Trades, Treaties, Troops, Wars, and Weapons.

Large classified captions — to mention only such as might not at first seem obvious arrangements — are as follows: Agriculture, Banks, Bridges, Catholics, Churches (see also Religion), Clergymen (see also Priests), Commerce, Courts (see also Judges), Economic Conditions, Education, Emigration (and Immigration), Farmers, Food, Frontiersmen, Fuel, Fur Trade (see also Hunters and Trappers), Game, Hunters, Indians (see analysis below), Judges (see also Courts), Laborers (see also Servants and Trades), Lands (see also Speculation and Surveyors), Laws, Lawyers, Libraries, Liquors (and Temperance), Meat, Merchants (and Merchandise), Militia (see also Troops), Mines (and Mining), Missions, Money, Navigation (see also Transportation), Negroes (and Slavery), Pilots, Politics, Priests (see also Clergymen), Religion (see also Churches), Sailors, Servants (see also Laborers and Trades), Speculation (see also Lands), Surveyors (see also Lands), Timber (Forests, Lumber and Lumbering, Trees, and Wood), Trappers (see also Fur Trade), English, French, and Spanish.

In searching for information regarding any Indian tribe, reference should also be made to the large general caption "Indians." This is the most complicated in the Index, and its use may be facilitated by first examining the following outline:

I. ANTHROPOLOGY AND ETHNOLOGY

In General. Racial Characteristics — *Physical, Portraits;* Mental; Stocks; Tribes; Clans; Habitat; Migration; Geographical Information; Population.

II. PHILOLOGY

In General.

III. MYTHOLOGY, FOLK-LORE, AND RELIGION

RELIGION; BELIEFS; MEDICINE-MEN; MYTHOLOGY AND LEGENDS; FASTS AND DANCES.

IV. SOCIAL AND ECONOMIC LIFE

CONDITIONS; OCCUPATIONS — *Hunting, Fishing, Agriculture, Manufactures, Miscellaneous Occupations*; FOOD; DOMESTIC ANIMALS; VILLAGES AND CABINS — *Cabins*; CANOES; FURNITURE; IMPLEMENTS — *Tools, Miscellaneous*; CLOTHING — *Accessories to Dress; Hair and Head-gear*; ORNAMENTATION; DECORATIONS; WAMPUM; PIPES; WARFARE — *Weapons*; WAR CUSTOMS; PEACE; SLAVERY; GOVERNMENT — *Councils, Justice and Punishment;* MORALS; LIQUOR AND INTOXICANTS; COURTSHIP AND MARRIAGE; WOMEN; CHILDREN; AMUSEMENTS; MUSIC; GIFT-GIVING; MISCELLANEOUS CUSTOMS; DISEASES; REMEDIES; MORTUARY CUSTOMS.

V. INTERTRIBAL RELATIONS

INTERCOMMUNICATION; TRADE; WARS.

VI. RELATIONS WITH WHITES

IN GENERAL; FRIENDLY; ATTITUDE OF WHITES; LANDS — *Reservations*; TRADE; MISSIONS; INDIVIDUAL RELATIONS; EFFECTS OF CONTACT.

The numerous variants of proper names are, so far as possible, grouped within parentheses following the form adopted by us as the standard.

In the alphabetical arrangement of captions, we have followed C. A. Cutter's *Rules for a Dictionary Catalogue* (Washington, 1891). In cross-references, "see also" refers to other captions; "see also below" (or "above"), to other divisions under the same caption.

The preparation of an analytical index to so large a series as the present, with its scores of thousands of references and cross-references to a multitude of subjects, is of necessity a task involving long and wearisome labor on the part of several co-operators. In the course
